FUSION PLAN WINS; GROUPS FORM NEW PARTY BOLIVIAN GOVERNMENT OVERTHROWN

To Pick Nominee Tonight

CHICAGO, July 13.—With plans practically completed for the formation of a new party embracing all the minority, liberal and radical groups, the labor party and the committee of 48 went into joint session this afternoon.

Besides the two principal groups, the meeting was joined by the single tax party, World War veterans, non-partisan league and several other organizations.

CHICAGO, July 13.—Amalgamation of the principal groups attempting to form a new party was effected here today. The committee of 48 voted to join the national labor party. A large non-partisan league group and a detachment of single taxers marched into the labor convention and announced they also had decided to amalgamate.

Rev. George C. Richmond, of St. Louis, opened the forty-eighthers' convention with prayer that was received with cheers.

"We are not concerned about heaven and hell," he said. "It is this world in which we are interested. As Jesus failed, so do we."

The prayer charged that Republican candidates "take orders not from Jesus but from Wall street," that the Democratic party "has sold out to those forces which face moral ruin and spiritual desolation." In Illinois, he said, "the governor and his parasites are ruled by plutocratic selfishness."

He added, "we are corrupt, mean, low classed, and selfish. George C. O'Connell in the great revolution now coming, save us from national dissolution."

Dr. Richmond specifically gave thanks for the revolution in Russia for "the new spirit of self-sacrificing among negroes," and in Ireland. He asked for the destruction of "Palmerism, Pennington and all other kinds of parasites." He also blessed Eugene Tamm, "in his prison cell." This reference was interrupted by cheers.

Oration of Max S. Hayes, Cleveland, chairman of the labor party national committee, naming of presidential candidates of the United New Party, was made a special order of business for 8:30 o'clock tonight. The convention heard the resolutions committee report and approved the co-operative store movement, election laws giving factory workers a vote and a number of other resolutions, including:

Relief from "starvation wages and inhuman treatment" for the postal employees.

Sympathy for Eugene Debs and Jim Farley, "martyrs to the cause."

Demand for the immediate repeal of the Esch-Cummins law and "democratic management" of the railroads.

A national ticket only is provided for in the coming election by the report of the joint conference committee of the minority groups. But the report explained that where any of the parties had organized for a state campaign that organization shall be the recognized state body for 1920.

The committee of 48 delegates voted to amalgamate before they had heard the report of their conference committee on the rambling blocks to the proposed action. These points were the plan and imposition of a capital tax.

During its separate session the committee of 48 voted to recommend a platform plank for "public ownership and democratic control of transportation, including stock yards, large abattoirs, grain elevators, terminal ware-

houses, pipe lines and tanks."

"The democratic control" by workers and their representatives was a labor party demand.

Harry Neuberger, of New York, discussing the plank in the 48 committee said:

"We may not be able to grab the entire earth at this time, but we can take a step in that direction."

With the 48 convention on record as agreeing to amalgamate later in the

New Priority Orders To Relieve The Coal Situation Planned

WASHINGTON, D. C., July 13.—New emergency orders from the interstate commerce commission granting priority to the shipment of coal to the northwest and New England by operators having contracts in those sections will be proposed by the bituminous coal operators to the railroad executives in New York tomorrow as a plan for improving the transportation situation.

WASHINGTON, D. C., July 13.—Although these participating expressed little hope that a satisfactory plan would be worked out by tomorrow when the operators will confer in New York with railroad executives, bituminous coal operators continued their meeting here today to discuss methods of supplying the northwest with coal for the coming winter. Several plans were advanced yesterday but were rejected, chiefly because all in some way would interfere with contracts, already made.

Plans proposed by a committee named to consider ways and means of getting coal to the states which are said to be facing a coal shortage provided for the establishment of a zone system or the restriction of operators to certain territory with a view of shortening mileage. Another proposed a division of the coal shipped among west in Ohio, Western Pennsylvania, West Virginia, Illinois and Indiana, each were rejected as it was claimed their adoption would involve the breaking of contracts. The coal shortage situation generally was blamed on lack of cars.

The session today was devoted to discussing questions the coal men will bring before the railroad executives tomorrow. These, it was said, will deal largely with the alleged failure of the roads to obtain the interstate commerce commission's priority order for car assignments.

While investigating a report that a negro had been drowned in the Maumee river, detectives discovered that there had been a terrible accident on the river and that the dead had been thrown overboard after getting a severe beating. His body was recovered.

Walter Reed, a mess boy, is alleged to have been the victim of the chef's attack.

Prices Paid To Farmers 102.5 Pct. Higher Than 10 Yr. Ave.

WASHINGTON, D. C., July 13.—The level of prices paid farmers for principal crops decreased about 1.7 percent during June, said a report issued today by the department of agriculture. On July 1, however, the report added, the average figure of prices paid farmers was still more than 20 percent higher than a year ago, 37 percent higher than two years ago and 102.5 percent higher than the ten year average.

Cox To Confer With Wilson Next Sunday

WASHINGTON, D. C., July 13.—Governor James M. Cox and Franklin D. Roosevelt, the Democratic candidates for president and vice president, will confer with President Wilson Sunday at the White House. Arrangements for the conference were made over the long distance telephone today by direction of the president.

President Wilson, it was said, took the initiative in arranging for an early meeting with Governor Cox and Mr. Roosevelt, and early today directed Secretary Tamm to talk with the governor on the telephone and find what day would best suit his convenience. It had been common knowledge that Governor Cox would visit the president, but Democratic leaders had not expected it to be before August.

Reports that the president and the nominee were apart on the League of nations questions was said by party leaders to have influenced the president in arranging for a speedy meeting.

It was said today that the president had kept in close touch with early campaign developments and was "anxious to do his part." Some additional developments were said to be in the air.

Harding Goes Into Seclusion

MARION, O., July 13.—Senator Harding went into seclusion today in order to work on his speech accepting the Republican presidential nomination. In order that he might give his entire attention to it, no conferences were scheduled and even the newspaper correspondents who are "covering" the Harding headquarters, were to see him only once instead of the customary morning and afternoon conferences. He plans to complete the speech this week.

Congressman and Mrs. Longworth, of Cincinnati, close personal friends of the senator and Mrs. Harding, arrived last night to be their house guests for a few days.

Lose Court Fight On Suffrage

WASHINGTON, D. C., July 13.—Justice Bailey in the district supreme court dismissed today injunction proceedings brought by Charles Fairchild, of New York, president of the American Constitutional League to prevent the promulgation of the ratification of the suffrage amendment and to test the validity of the equal suffrage law. The court held that it was without authority to inquire into the action of the state legislatures in ratifying the suffrage amendment and that it had no authority to pass upon the validity of such an amendment. Mr. Fairchild noted an appeal to the supreme court of the United States.

Third Party Menaces G. O. P. Victory More Than The Democratic

(BY DAVID LAWRENCE)
(Copyright 1920 by the Times Publishing Co.)

CHICAGO, Ill., July 13.—Many things may happen before the election day. But if the polls in the presidential contest were to be closed tomorrow certain other things would surely happen—such as, for instance, the election of Warren G. Harding, Republican, as president of the United States. And if the third party movement develops even the minimum strength expected of it—namely, the carrying of Minnesota, Wisconsin and North Dakota—Governor James Cox, of Ohio, Democrat, may be the happy beneficiary and president of the United States.

However insignificant the third party may appear to eastern eyes; however much it may be described as socialist, ultra-radical and hard-made, the fact is it does menace Republican victory more than it does Democratic. For the Democrats who nominated Cox of Ohio deliberately forced the west and chose to make their battleground in the east. Gay, said, it selected the name "Communist" labor party because it sounded revolutionary.

Several witnesses testified concerning the New York conference preceding the Chicago convention when the McGowan manifesto was adopted.

LIMA, PERU, July 12.—A revolution has broken out in Bolivia, according to dispatches received late today from La Paz. The government headed by President Jose Gutierrez Guerra has been overthrown, and the president and members of his cabinet have been made prisoners.

Bautista Sacedra has assumed power, being supported by the army, and is said to have appointed Jose Carrasco, former Bolivian minister to Brazil, chancellor. Newspapers here in commenting on the news, say the revolution is a "crushing defeat of the pro-Chilean policy pursued by the Bolivian government and vindicates the community of interest existing between Peru and Bolivia."

Jose Gutierrez Guerra was elected president of Bolivia on May 7, 1917, the government which has been overthrown was formed on March 15, 1920. Bautista Sacedra was formerly minister of public instruction, having been appointed to that office August 13, 1909.

The question of a seaport for Bolivia has been pressed to the front by Bolivia recently, and Peru has charged that Chile was working in conjunction with the Bolivian authorities to obtain such a port at Peru's expense.

Peru claims the provinces of Tacna and Arica, which Chile took possession of at the close of the war of 1879-83, in which Peru and Bolivia were defeated by the Chileans, Bolivia losing her entire sea coast as the result of that struggle. The port of Arica was mentioned as the one Bolivia should receive, and this port is in Africa province, still claimed by Peru, as the peace treaty provisions for a plebiscite in the disputed provinces have never been carried out.

Peru's position has been that if Chile was willing to help Bolivia to a seaport, she should furnish that port in territory which she took from Bolivia as the result of the war. Chile, on the other hand, claims that the right of the Tacna-Arica dispute is on her side and has denied any part in anti-Peruvian movements in Bolivia in connection with the seaport question.

Mystery In Man's Death

Charles Albert Saunders, Solway, rode plant employee, of Long Meadow, died suddenly this morning about 5:30 o'clock, at his home. He was taken ill at his work Monday evening and went to bed. His condition grew serious during the night and this morning early a physician was called from the city. Before the physician arrived the man had died. His chest, neck and back turned purple, which indicates a collection of blood in these places.

A post mortem examination held Tuesday morning in the Duclier morgue failed to throw much light on the mysterious death of the man.

Dr. J. D. Hendrickson, county coroner, and Dr. H. A. Schirrmann, who was called to the Saunders home early this morning, conducted the examination. The doctors, after a thorough ex-

amination, lasting over two hours, agreed that there was nothing about the man's organism which would cause sudden death.

Thorough examination of the stomach and elementary canal failed to show any traces of poison, and Dr. Hendrickson says that while there were traces of trouble which might cause a long and serious illness and ultimate death, there was nothing to show how the death could have been so sudden.

A theory was advanced that the man might have been gassed, but the coroner says that this is highly improbable, because of the length of time he lived after he was stricken. In a case of gas, he says, the man would have suffered and shown signs of struggle for breath immediately when the gas entered the system.

After signing the death certificate, stating that the cause of death was unknown, the coroner said that an inquest would be held in the near future to inquire into the facts in the case further and try to fathom the mystery.

Dr. Schirrmann in speaking of the case, said that when he was called, he hastened right out, but arrived too late. Questioning of the widow, he said, revealed the fact that the man had been complaining for some time, but that there was nothing in his condition to solve the mystery.

Saunders is survived by his wife and three children. He was born 32 years ago in Huntington, W. Va., and has lived in Solwayville for some time.

The Steady Pull

If you are impressed with the surface showing of people who, by expensive living and display of luxuries, look as though they were getting along much faster than you, just remember that only about five people in every hundred practice sufficient economy to live on their own means when they have reached old age.

Live within your income, put your savings at 4 per cent in THE ROYAL, and you will find that the STEADY PULL—working and saving regularly—is what counts.

A dollar or more starts an account in this sound, conveniently located and successful institution where the depositor's best interests come ahead of every consideration.

(Continued from Page One)

Administration leaders indicated that he would throw his weight into the fight and might make a statement from time to time. On the other hand, White House officials declared the president's course would be determined largely by the advice of the national committee.

Governor Cox will leave Columbus for Washington at 3:50 Friday evening. He will leave Washington Sunday evening for his home at Dayton. He would not discuss what matters he intends taking up with the president.

More Charges Filed

The conviction of Harrison Clifford, Washington street man, in Municipal court Tuesday on a charge of disorderly conduct, made by Mrs. Mary Linear, 1017 Washington street, resulted in the court directing Sheriff Seaton to prefer similar charges against Mrs. Lucas and others that participated in the row staged Sunday, which led to a belk throwing contest. Clifford was taxed the cost of Acting Judge Beatty.

Charles Young, Pond Creek farmer, arrested Monday by Sheriff Hickey and brought into Municipal court on a charge of forging a check for the sum of \$35.50 drawn on the Security Bank in the name of W. W. Sherborne, merchant at Rine Eon, Jefferson township, was dismissed when Acting Judge Beatty after hearing the evidence held that the testimony did not

support the charge. The prosecution was based principally on the similarity of the endorsement of the bogus check and one issued previously by Sherborne to the accused in payment for a balance due on a threshing bill. The accused strenuously denies ever seeing either of the checks. He was represented by Attorney F. W. Moulton.

Novel Barges Pass By

Six large freight barges, which were towed down the Ohio river about 7:30 o'clock Monday night, were probably part of fifteen barges which the American Bridge Company, Ambridge, Pa., is building for the government for use on the Mississippi river, according to Captain Klumbe of the local wharfboss.

The original contract was for 35 of these barges, which were delivered, and then the contract for the 15 more, making a total of 50, was let. The captain says that these barges are about 200, and that he thinks the crowds in York Park who rushed to the edge of the bank and watched the barges going down, witnessed the transportation of these new government barges.

FINE GAMBLERS

Pleading guilty to charges of gambling when arraigned in Municipal court Monday evening, the eight men caught by Sheriff Hickey Sunday night in a raid on a card game at the Inter State barn in the West End,

After hearing the evidence in the case of Blaine Humphrey, colored, charged with assault and battery upon George, aged 7 years, son of George White, colored barber, 1424 Waller street, Acting Judge Beatty in Municipal court Monday dismissed the complaint.

The evidence disclosed that Humphrey, who is a cousin of Mrs. White and a boarder there, was authorized by her to correct the lad for running away from home. This brought on a clash with the husband and Humphrey's was ordered to leave.

Motorcycle Rider Badly Injured In A Collision

When a Ford automobile and a motorcycle disputed the right-of-way while speeding along the Galia Pike Monday afternoon, the motorcycle lost the decision in the head-on collision which resulted and the two riders, Stewart Suthers, 19, and Russell Lenevar, 19, both steelworkers, were badly hurt. The auto driven by Alfred Rockhold, Solonville, and the accident occurred at Beech street, just west of the "Y" at East Portsmouth. The auto was traveling east and was on the right side of the road, according to a number of eye-witnesses, while the motorcycle was going west and the collision resulted from the latter vehicle swerving to the south side of the road as it approached within a few feet of the auto.

The impact threw the riders violently to the pavement and Suthers was unconscious when picked up. He was rushed to Hempstead hospital in a passing automobile and Lenevar was taken to the home of his aunt, Mrs. H. A. Vint, 1829 Offshore street. Before reaching the hospital Suthers regained consciousness and an examination by Dr. H. A. Schirrmann showed that he had sustained a broken wrist, besides numerous severe bruises about the body and limbs. Lenevar suffered two small cuts about the head and he also was badly bruised up. The motorcycle was almost completely wrecked and the auto front was badly damaged.

Young Suthers resides with his parents, Mr. and Mrs. George Suthers.

POLICE CHIEF SHOTS NEGRO

PORTSMOUTH, O., July 13.—In a pistol duel with Chief of Police Masie last night at about the midnight hour, William Myers, a colored man, residing near Tenth and Quincy streets, was fatally, though not seriously wounded and is now confined in the city prison facing a charge of intent to kill. Myers sustained three flesh wounds in the arm and chest, and will recover within a short time unless blood poison develops.

At about midnight last night an urgent call was received at police headquarters, asking that officers be sent to Tenth and Quincy streets. All the patrolmen were on duty, special and otherwise, and Chief Masie was at the desk and responded to the call, proceeding to the scene in a taxi. All seemed serene there, however, and the chief immediately made an effort to ascertain who had issued the call. The chief went to Mrs. Howard's restaurant, some distance away and attempted to make a call from that place, but the place was closed and he returned to find his taxi cab.

In the interim, however, Myers had approached the taxi driver with a .38 calibre automatic rifle and ordered him to move away from the scene, and the driver, John Chanceller, immediately complied with the demand.

When Chief Masie had returned to Tenth and Quincy streets, he heard the shrieks of women coming from Myers' house and proceeded to the point of disturbance. Myers confronted him with a .38 calibre rifle and fired at the officer. Chief Masie replied with a shot which grazed Myers' forehead. Myers again fired and the chief stated that the bullet passed unaccountably close, but he again returned the fire and the bullet struck Myers in the chest, entering about two inches below the heart and taking a course across the chest, causing an ugly flesh wound.

Myers went down and Chief Masie closed in and grappled with him, wresting the rifle from his grasp, then at the point of the revolver, he forced Myers to accompany him to the taxi cab, which conveyed the wounded man

to the Roosevelt Hospital, where his wounds were dressed and diagnosed.

Upon examination, Dr. Don Gray stated that Myers was found to have three wounds. One was a perforation two inches below the heart, one at a point three inches above the perforation, where the skin was broken, but no bullet had penetrated. There was also a nip on the left forearm where one

Hair Often Ruined By Careless Washing

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Mul-Sified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Mul-Sified coconut oil shampoo at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

of the bullets had grazed the flesh on the way. The bullet was located in the right chest wall, directly opposite the point of entrance. Myers bled freely, but not dangerously and the outcome of his experience is favorable, provided blood poison does not set in, according to the surgeon.

Myers admitted he had drunk a large quantity of liquor Sunday, consuming the greater part of it after supper. He said he had fired the first shot and exonerated Chief Masie in every way, saying that he would have done exactly as the chief did in the same circumstances.

NEW RULE CAUSE OF ARGUMENTS

Fans have had arguments pro and con on the Red game of Sunday when the Redlegs scored 3 in the ninth when one was all that was needed. The explanation below is given in the hopes of stopping any argument that might lead to more serious results for those who wish to argue the point.

"The new rule providing that a batter making a home run in the last half of the ninth inning shall get credit for the full value of his hit was passed last winter for the benefit of Babe Ruth. Previous to this year a game was over as soon as the winning run crossed the plate, and the batter got credit for a single or a double, depending on how far he had gone when the run scored. But the rule was changed so that a home run in the last half of the ninth counts as a four-bagger and all runs made on it also count. Hence the score of the game was 6 to 3, instead of 4 to 3, as it would have been last season under the same circumstances. Eller was on second and Rath on first, and they both scored ahead of Daubert. If his drive had not bounded into the bleachers for a homer, only Eller's run would have counted, and Jake would have been credited with a two-bagger."

WANT TO KNOW

The nearest Catholic church to Garrettsville is located in Portsmouth, Ohio, which is 16 miles from here.

Dear Dolly—I run around with a crowd of girls and one of them told me to call another girl's fellow up and ask him to come to see me. She said she would get 'em up to the crowd if I did. I went to the phone and asked for a date but he would not make it with me. But I got the treat. Then the man told his girl and she got mad at me. What can I do to get her?

BLUE EYES

Such a dare should have been ignored. It shows poor judgment on your part to sacrifice the friendship of a girl friend and to lose the respect of a young man just because you would not take a dare. If they had dared you to go down and jump in the river would you have gone? Forget the incident just as quickly as possible. Do not talk about it or offer apologies. Make your future conduct above reproach so that you will stand some chance of regaining the friendship of the girl and the respect of the young man.

Complimenting Miss Anna Prantz, whose marriage to Mr. Frank Toomey will be an event of July 20, Misses Josephine Doerr and Grace Long and Mrs. Lee B. Turner entertained with a Japanese party and kitchen shower at the home of Mrs. F. L. Stokes, 1623 Seventh street, Monday evening. The rooms were tastefully decorated with summer flowers and shaded lights. A prettily decorated basket of useful cooking utensils were presented to the bride-elect by two daintily attired little misses, Irene Reinhardt and Catherine Busch.

The spacious lawn in the rear was converted into a Japanese garden with lattice work and artificial Japanese flowers and Japanese lanterns. Five small tables were set with Japanese cards and favors marking the places of each guest. The Oriental churra was made more vivid by pots of Japanese incense, giving forth a fragrance from each table.

A delectable course of sandwiches, tea and salted almonds was served by the hostesses to the following guests: Misses Elma and Mildred Prantz, Mary and Gertrude Gergens, Virginia Lile, Luella Stokes, Agnes and Kathryn Cassidy, Sadie Turner, Josephine Doerr, Helen Hill, Grace Long, Mrs. Rosa Baughman, Mrs. Lee Turner and guest, Miss Nell Iye, of Atlanta, Ga. Several other parties are being planned for Miss Prantz.

The Egg Situation:

We have had a few complaints about eggs. Eggs have been so scarce the last few weeks that there was not possible much selection. They were nearly all poor quality, even those from the most careful and conscientious producers—not spoiled of source, but just cloudy or slightly spotted, a condition peculiar to the season. These eggs would grade No. 1 on any market—because it is impossible for the farmer to get them to market fresher unless he goes every day. Yet we have instructed our produce-man to grade the top qualities more carefully and hereafter our selected eggs will be absolutely fresh and clear from any suggestion of overheating. These we unconditionally guarantee for one week from date of purchase. The price this week is 50c a dozen subject to change without notice. The second quality which will sell at 46c a dozen are all guaranteed to be good wholesome eggs but they may not keep so long.

In view of the present scarcity of the best quality eggs we suggest that our regular customers place a standing weekly order for their needs because it is our desire to supply our established customers first. It is against our policy never to use our stocks such as sugar, eggs, etc., in times of scarcity to attract new business. We desire to protect those who have given us a fair share of their business in the past to the best of our ability. All last week we had pure cane granulated sugar, 5 pounds to a customer at 24c. One lady suggested that would certainly make a good ad and wondered why we didn't use it to attract more business. The quantity being limited it belonged to our established friends—and they got it.

Another Youth Missing

Newspapers throughout this section of the country are being asked to help locate Manning A. Tree, 17, missing from his home in Ithaca, N. Y., since June 6th. It is thought that there might be some chance of his being in this territory.

The lad is 5 feet, 8 inches tall, weighs about 135 pounds, and has good teeth. He plays a clarinet and cornet well enough to play in a band or orchestra.

It is thought that he was probably lured away from home by advertisements of big wages paid to boys. Anyone knowing of this lad's whereabouts is requested to communicate with A. E. Tree, 607 North Cayuga street, Ithaca, New York, the lad's father, who will be glad to have him detailed, if located.

Mr. McCulloch In City

Congressman Roscoe C. McCulloch, of Canton, carried his campaign for the Republican nomination for governor into Scioto county Tuesday when he reached Portsmouth in an automobile campaign tour of every county in the state.

Congressman McCulloch, with Frank K. Norwood, Republican county chairman of Stark county, spent Tuesday morning conferring with Scioto county Republican leaders and meeting other friends here. Members of his party said that they found much sentiment throughout this section of the state in favor of the Canton congressman's candidacy.

In his talks throughout the state, Congressman McCulloch is advocating the establishment of a state budget system, the elimination of unnecessary state bureaus, and the adoption of a civil administrative code to cut

PROFIT OF MARGIN ON FOOD IS SET

COLUMBUS, July 13.—The following are some of the salient points, in the margin-of-profit list on foodstuffs. The margin was announced Monday by Ohio State Fair Price Commissioner in Columbus.

Sugar, bulk, 3 cents.
Sugar, packages, 2 cents.
Potatoes, eggs, butter, bacon, smoked hams, cornmeal, 15 per cent.
Fresh meat 20 per cent.
Profits may be figured on selling price.

A margin of three cents a pound is allowed on sugar in bulk and two cents in refiners' packages. A 15 percent margin is allowed on flour in original packages of one-fourth barrel or more and 20 percent in smaller quantities or broken packages. A 15 percent profit is allowed on potatoes in bushel lots, eggs, butter, smoked hams and bacon. A 20 percent profit is allowed on fresh meats, corn meal, evaporated milk, sweetened, oatmeal, rice, beans, canned corn, peas and tomatoes. Any sale of food commodities at a gross margin above delivered cost in excess of the margins fixed will be subject to investigation by the commission, the commissioner announced, and if found unreasonable will be forwarded to the department of justice for prosecution for profiteering. Penalties may be calculated on the selling price. "Any change from the pre-war practice in cash discount terms or other changes which tend to or result in increasing the margin of profit allowed will be dealt with as an unfair practice," the commissioner announced.

No Fair Price Commission has as yet been appointed in Scioto county. The Chamber of Commerce will no

doubt make a number of copies of the Fair Price list and mail it to its members in the grocery, meat and general merchandise business.

GO WHERE THE CROWDS GO PORTSMOUTH DRY GOODS CO. BEST VALUES AT ALL TIMES

Gasoline "Boiling Points" —and Piston "Knocks"

A GASOLINE without a complete chain of boiling points vaporizes unevenly, ignites slowly and burns up incompletely, leaving an excessive amount of residue to form carbon on the piston head. This carbon deposit is the cause of pre-ignition "knock"—the same effect you get with a too greatly advanced spark.

Red Crown Gasoline has a complete chain of boiling points. It burns up quickly and completely—leaving a minimum of deposit. With Red Crown in the tank, you can be sure of quick starts, strong acceleration, sustained power—and big mileage per gallon.

"Just One" Will Always Do It

The New Idea Laxative that Never Wearies Out!
All other laxatives are based on the old idea that "Just One" is here. Who wants to keep on changing from one brand to another as the effect of each wears out when "Just One" never wears out?

Each of the 20 tablets in each box of "Just One" is the same size, shape and appearance but of different composition from the other 19. One tablet gets action by bringing up the sluggish liver, another does its work upon the lower bowel, etc., each a pleasant, thorough, dependable laxative of a different sort.
That's why "Just One" is the ideal laxative that never wears out. They don't "pile up" a single organ all the time, but keep all fit and vigorous. Your system can't become used to and unresponsive to "Just One" because each dose is a change.
See the point. Then get "Just One" today. Any druggist anywhere can get "Just One" for you or we will send it prepaid upon receipt of 50¢ per box. Portsmouth Chemical Co., Council Bluffs, Iowa.

For Tonight, the Exhibit Theatre Presents Another Big Double Bill
Offering the King of Comedy Actors, Larry Semon in "Dew Drop Inn" and the Star of New York's Biggest Musical Success, Edith Day in "Children Not Wanted"

The Exhibit Theatre takes great pleasure in presenting for tonight, an unusual double bill offering Larry Semon, the acknowledged king of comedy actors in one of his biggest successes, "Dew Drop Inn," and Edith Day, star of "Hugue" out of New York's biggest musical hits in the new Republic picture, "Children Not Wanted," the story of an international swindling plot which culminates in a sensational murder and has a deep

hidden mystery which remains unsolved until the last moment. The principal theme of the picture has to do with a determined, self-reliant girl who casts her lot with the struggling masses of a great city and the trials and tribulations she encounters together with her action for the play. Thrills, romance, mystery and action all go to make "Children Not Wanted" one of the year's best pictures and you should see it.

FEELS LIKE A NEW MAN SAYS MARTIN

"Yes, sir, in one month's time Tanlae has restored my health and I have gained fourteen pounds in weight, besides," was the statement made a few days ago by Win. N. Martin, a well-known bricklayer, living at 104 Bellows Street, Akron, Ohio.

"Last December I had the flu and it pulled me down considerably in weight and strength and left me in an awful weak condition. My stomach was all out of order and I had practically no appetite at all. The little I managed to eat disagreed with me and caused me terrible pains and burnings all through my stomach and chest. I suffered awfully from gas and bloating and at times felt like I would give the world if I could just get one good, long breath. My nerves were all upset and at night I would roll and toss, hardly able to get any rest at all. Every morning I felt all fagged out and I was so weak and run-down it was beginning to look like I would have to give up my work."

"But today I am a different man, thanks to Tanlae, and if there was ever a time in my life that I felt better I don't remember when it was. Tanlae has simply swept all my troubles away and built me up to a well, strong and healthy man. My appetite is so fine I can hardly get enough to eat and I can eat anything I ever could in my life without any fear of it disagreeing with me in any way whatever. My nerves are as good as they ever were and I enjoy sound, restful sleep every night. Several of my friends have taken Tanlae on my recommendation and every one of them have told me it has helped them."

"Open Shops" Upheld By Ruling Of Judge

CINCINNATI, O., July 13.—Agreements under which employers operating open shops employ only those agreeing not to affiliate with a union, were upheld yesterday by Judge Hickel in superior court today in the cases of the Smith Pattern Works vs. The Pattern Makers' League, and the John Douglas Company vs. members of the Metal Polishers' Union.

Following an announcement last spring that all non-union shops would be unionized some employers had all employees who remained with them agreed during their employment with these firms they would join no union organizations.

The suits brought by nearly a score of firms were filed when pickets sought to induce the men who had signed the agreement to quit and join unions.

If Judge Hickel's decision is upheld it will prevent strikers from interfering even in a peaceable way with employees working in open shops and non-union agreements it is stated.

THE HIGH COST OF LIVING

A Washington lives, and apparently thrives on job-holding, she takes a more serious interest in the matter of what of fee-holders do and say.

From this it arose that when, the other day, one of the departments sent out the statement, that the country was spending too much for luxuries and the total therefore would reach twenty-two billion dollars, there arose sharp question of the substantial accuracy of the figures and criticism for their announcement.

This set the arraigned department to digging into reports and without covering all the articles, which might be well described as luxuries, it established beyond reasonable contention that its estimate was well within the actual figures.

Of course, luxuries does and ought to have a wide variation, but the department was rather narrow in the articles it classed as such, and did not attempt to say that what might well be dispensed with altogether was a luxury, or attempt the division that what might be spending for a luxury on the part of one individual of limited means would not be such on the part of another more richly circumstanced. Thus it did not include soft drinks, nor reckon that an automobile, purchased solely for pleasure, for instance, was a luxury, which it most surely is.

This then being the case we have the twenty-two billion dollars for the purchase of absolute luxuries. Which is to say that for every inhabitant two hundred dollars was squandered for things that were of no need and no profitable use. That is a stupendous sum. Add to it the millions more spent for trifles, things only of the moment and indulged in to excessive and we have what this expounder has, from the beginning, shouted up and down the valleys and across and over the hills, that our trouble, if there be such a thing as trouble, in these times of plenty and to spare, is not the high cost of living, but the cost of living high.

NOT ALL ON THE ROADS

THE railways of the country, in the aggregate, are rendering deplorable service, worse, if such be possible, than when the exigencies of war service, more heaviest and most perplexing upon their facilities. Shipments are sadly delayed and complaint is universal.

But do not put all the blame upon the roads. They are akin to the veins of the body through which the blood courses, any disturbance where affects all are a part of them.

Disturbances of all sorts and strikes, many of them without reasonable or plausible pretext have gnawed and twisted their operations. The coal strike has its serious effect, precipitating a mass of tonnage that should have been going through normally, the steel strike had, a worse outcome and then came the unauthorized switchmen's strike, which clogged up everything for weeks and weeks, a condition which inexperience helped to accentuate and which they have made no seemingly decent progress in relieving since. In fact, never did conditions seem so alarming as they are right now and a shut down of a major portion of the steel mills is a near threat, simply because they can't get the congestion about their plants removed.

Yes, it is the devil's own time with the interstate commerce commission and the railway executives. Before the first are delegations swarming, asking priority for their products and insisting the country is going head on to the denunciation howlows if their requests are not granted and the second have a myriad of shippers imploring them, generally in sulphurous words, to get the consignments through some time this year.

Let no one suppose that the railway managers are standing still and sucking their thumbs. They are bending every energy and charting out every scheme for better. They are not only the most harassed class in the country, they are the hardest worked. They are doing everything possible. With a right attitude on the part of patrons and loyalty and best efforts on the part of employees they will, if given fair time, have things moving with more celerity and smoothness.

The campaign reaches the sublime heights of humor at the very beginning, in fact almost before it had begun. See Boise Pearson, of Pennsylvania, throw fits of indignation because the corrupt element of the country has nominated Jim Cox for president. Yes, brethren, see Pearson and Pennsylvania and laugh yourself to tears over the comedy.

This is a good story. Many farmers' wives would esteem it a better one, just at this moment, if a satisfactory answer to its query were embraced. The Red Cross receives many requests for queer information. It was completely stupefied the other day when a little country girl wrote it: "Please tell me what will make my chickens lay?"

New-York - Day-By-Day

BY G. A. MONTY

NEW YORK, July 13.—The fire escapes in the tenement districts are now being with balloons like leeches. Hokey-pokey ice cream men are reaping their harvest of pennies. The evening arrival of the street washers is hailed with rare enthusiasm. Sweltering humid nights have come to the East Side. The pungent smell of sun on asphalt clings all through the long torrid evenings.

Dawn reveals row after row of naked babies, half-dressed men and women, who have lost all sense of modesty in common suffering. Men sit out at the curb in pillow-top chairs all night long fanning until they nod - from sheer exhaustion. Children of 9 and 10 run about clad only in the familiar loin cloths of the South Sea savages.

There are no children whoops in the slums in hot weather. A languor affects the young and old. The crowds of the hurdy-gurdy fall on unheeding ears. Tony, the ice man, in his dark cellar hovel is the tenement summer idol. For Tony may press his summer wares to a heated brow and find success. And no wonder Tony is such an idol, for in the winter he sells coal by the bucket.

Coal and ice are slum luxuries. The slum folk look forward to that little bit of luxury that comes now and then—charity trips to Coney Island. It gives them something to talk about the rest of the summer. If little Maggie has been to the seashore twice in a season she is regarded with the same light of admiration that is bestowed upon the wearer of a million dollar necklace on Fifth Avenue. It is something to brag about.

All the heads are closely clipped. It costs a dime to have the hair closely clipped at the Clipper, run by an enterprising young Italian on Delancey street. When the first hot days come a line forms several blocks long, and

even some of the girls sacrifice their curls to keep cool.

They caught Chick-a-dee the other day on a Broadway subway express train. He had while reading, a newspaper fifty a pearl stick pin from a Wall Street magazine, and he would have been safe had it not happened that a Central Office man was at his side. Chick-a-dee is the only Chinese pickpocket known in police annals.

Just as Old Horse and Wagon was the only known Chinese vagrant, so was Chick-a-dee alone of his race to become skilled as a subway dip.

Sometimes popular tunes like Topsy just grow. There is one called "Mystery." The origin of the song is a mystery. It started as a stray tune of a New York dance orchestra.

It grew into a real melody and words were written for it. Now all the elgists and orchestras along the Great White Way play it. Even Art Hickman has picked it up. Its popularity grows—and the author will probably never be known.

The Diary of an Engaged Girl

BOHEMIA

July 13.—Had lunch at the Greenwich Village Inn today. Have been hearing so much about that particular place, so finally I asked Jack to take me there.

It's too interesting for words, really. All the artists and writers of New York's Latin quarter, as the village is called, come here to eat or sit around and talk, and no one bothers them—sure enough. I imagine it is something like the place that I have read about in Paris. Anyhow, it gave me a real thrill to be sitting there at last.

While we were eating, "Paris," that good-looking young man that we met at the Greenwich Village Inn, walked in and eyed me innocently. He bowed and smiled over in a frank way and I did wish that he would come over and sit with us. After all, these people do interest me very much, and they are all so new to me.

When I wasn't talking to Jack or watching the fascinating and hungry "Paris," I was staring around the place, taking in every detail. You see, Laura has been there with Morgan and described it to me, so I wanted to see for myself.

It is different. Very different, indeed, from what I had translated that it is as you please. Hence its popularity.

the owners of the inn. One or two good nudes hung in the hallway and Sonia's Cigarettes (very good, by the way) are advertised by a stunning poster.

Sonia herself walks through the place occasionally. She is fascinating to look at with her short and very wild curly hair, flaring out round her pale face, and her startling brown eyes. Then, too, she always wears the most wonderful and weird smocks, most of which she makes herself. And she sure does get the right combinations of colors. Dazzling are the most of them. What pleased me most was the independence of her feet, bare and bare-soled. How I envied her!

At about one-thirty there was a humming in the air, and much laughter, which heralded the descent of about a dozen of the chorus from "The Greenwich Village Polka," now playing at the Village Theater. Beautiful girls, some of them, and so full of the old Nick. They all had a smile or a pout for "Paris," and one very pretty little thing went up and threw her arms round his neck and kissed him, much to the amusement of the rest of the crowd. "Paris" did not seem in the least put out, an eccentric, he went right on eating his peach, mellow, stopping only to offer the girl a spoonful!

Dear, dear me, how I do love all this free and easiness. How I wish I had been brought up in an atmosphere like this. I should have been much happier, I know.

No wonder Laura yearns for matrimony, for it will bring her the key to

LAURA CLAY

To Miss Laura Clay of Kentucky goes the honor of being the first woman who ever received votes in a presidential nominating convention.

BILLY WHISKER

FRANCIS TREGO MONTGOMERY

But all things must come to an end; and Billy thought it was high time for this particular fight to come to an end right here. He had heard a belated roar from Little Duke, followed by a groan of agony. This was too much for Billy. When a friend called for help he could not stay away; as with one bound he was out of his stall and lunged at the little door that separated him from the arena. This gave way with a crash and with a rush and a plunge Billy bounded into the ring.

The first thing he saw when clear of splinters and dust was a huge amphitheatre packed from the lowest to the highest row of seats with people and the faces made a human curtain. In the arena lay disemboweled horses and slaughtered bulls. In the very center stood Little Duke bleeding from a hundred wounds but still unconscious and defending himself nobly. There he stood with head erect, eyes blazing and nostrils quivering, ready to kill the first man or horse that attacked him.

In a twinkling Billy took in the situation, and before the audience or fighters knew what had happened Billy had tossed one torreador to one side, nearly breaking his back; had put another to flight; and then made straight for the horseman who had so cruelly tortured Little Duke. Just then an attendant opened a door, the man and horse escaped, and the ring was cleared.

Billy, going back to see how badly Little Duke was hurt, licked his nose in sympathy, and told him to brace up for the fight was over for that day. This pathetic scene seemed to touch even the hard hearts of the Mexicans. They began to bid for the ownership of the goat and to cheer and cheer until they could have been heard many blocks from the amphitheatre.

At last Billy perceived that he and his friend were standing alone in the center of the big ring with every eye upon them. The next thing he noticed was that a little stubby-tailed yellow dog was circling round and round them, barking in great glee. The fight was over and Stubby had come to congratulate them. And thus ended the bull fight.

They kept running until they were sure they could not be overtaken and then they stopped for breath and to decide where they wanted to go next. While nibbling the leaves from a bush, Billy, clanking to look up, saw straight ahead of him, looming up above trees and house-tops, a big mountain out of which a column of smoke was curling like a black place against the clear, blue sky.

(Tomorrow Billy tells Stubby a joke.)

SILK FROCK WITH OLD-TIME CHARM

Lucile, who is five, does not like to say her prayers at night when she is sleepy.

"Did you say your little prayer last night?" her mother asked her one morning at breakfast.

"No, said the little girl, 'I was too sleepy last night, mamma, but Sunday night, when you put me to bed before I was sleepy, I prayed seven prayers—enough to last me all this week.'"

Unnecessary Exertion

Morton Morose—"No; it is not necessary. When the train stops I'll step off."

Luck
"There is no such thing as luck," remarked the severely practical person. "You must depend on your own intelligence."

"Maybe so," replied the patient friend. "But some of us aren't lucky enough to have that much intelligence."

No Use Waiting

One Sparrow: "Folks gone away?"

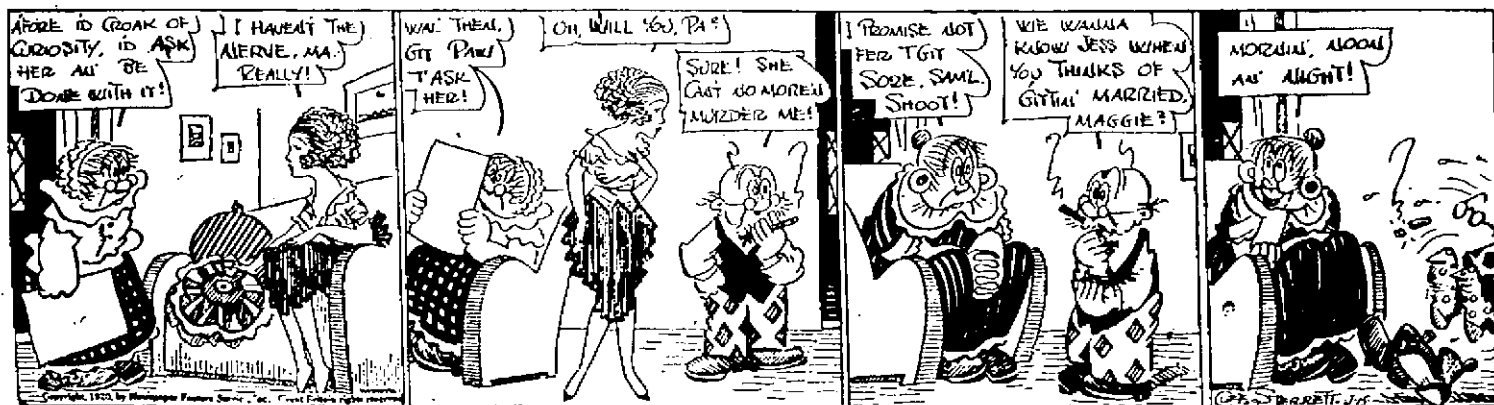

House Cat—"No; but they are going to have breaded veal chops for tomorrow."

OPEN BREACH NEAR ON FUSION PLAN IN NEW THIRD PARTY

Factions Unable To Agree

CHICAGO, July 12.—Proposed amalgamation of the minority political groups in one new party hinged today on two joint conferences.

The labor party of the United States, in an ultimatum adopted last night, after 20 hours of conferences had failed to bring the party and committee of 18 together, voted to proceed to the adoption of a platform and selection of candidates if a conference report was not ready by 10 o'clock this morning.

At midnight the conference sent back its session by their conventions, requested their discussion in a final effort to reach an agreement satisfactory to both groups and avert an open breach. The conference committees resumed their work, prepared and willing to go the limit in concessions which would not impair the basic principles to which their respective conventions were committed. The radical faction in the labor convention threatened for several hours last night to break off negotiations with the forty-eighters immediately. More conservative delegates, however, stayed off the impending split by throwing their support behind the ultimatum which postponed decision until today and gave the conference another opportunity.

The ultimatum was in the nature of a compromise between the widely divergent views of the extreme left and right wings, one favoring an immediate break, and the other indefinite continuance of the negotiations.

Dramatic appeals for unity by Francis Dillon, of Indiana, and Dudley Field Malone, of New York, were credited with having thrust the tide against the radical element. Malone, one of the forty-eight leaders and also a member of the labor party, placed the measure before the conference.

group with a promise that the rank and file of the forty-eighters would back the labor branch if amalgamation proved impossible.

Speaker after speaker asserted that the "intellectuals" leading the forty-eighters had no real control over the mass of their followers and that an appeal from the labor party would bring the private of the forty-eight movement into the labor ranks.

Delegates freely urged that the labor party "forget all about the forty-eight leaders and go after the farmers in their convention."

They said that the former strength in the other meeting had no real affinity with the "plutocrats and slick lawyers" whom they asserted, compromise the leadership of the forty-eight groups.

Opposition of the conference committee of forty-eighters to the use of the name farmer-labor as the party designation proved the first big stumbling block in the way of amalgamation, but they are understood today to be in a conciliatory mood on this question.

While the labor convention fought out the question of whether the hour had arrived for a definite break, the forty-eighters marked time with a continued flow of energy, which, in both conventions, consumed the greater part of the day.

Meanwhile, in a third hall, the single tax party was frantically appealing to Premier Lloyd George of Great Britain, urging that his government adopt a single tax policy for Palestine. The single taxers plan today to adopt a platform and possibly nominate a presidential candidate, in the event the committee of forty-eight nominees proves unsatisfactory to them. They specifically agreed that they would not join the new party, should the nominee be Senator Robert M. La Follette.

Minsk Falls To The Reds

LONDON, July 12.—Minsk has been captured by Russian Bolshevik forces, according to an official statement received here from Moscow, which says the Soviet troops occupy the town on the morning of July 11.

Minsk is the capital of the Russian government of the same name and is situated on a branch of the Berezina river approximately 250 miles north-east of Warsaw. For some time the Russian Soviet forces have been converging on Minsk from the north and south and the position of the city has seemed to be serious. The fall of Minsk would seem to indicate that the city, about 110 miles to the north-west, is in immediate danger of capture by the Bolsheviks.

Longshoremen Go On A Strike

NEW YORK, July 12.—Local proceedings to join deep sea longshoremen from discriminating against the handling of goods carried by non-union trucks, were threatened today by the law committee of the Citizens Transportation committee, following the strike of 1,000 longshoremen yesterday, which followed refusal of the Oriental Navigation company to reject goods brought to its piers by non-union trucks.

While the Oriental Navigation company waited endorsement of its action from the United States shipping board, John F. Ryan, vice-president of the Longshoremen's Union, declared the men "would not go back to work while they are asked to handle 'scab' freight. The longshoremen are under contract not to strike until October 20. Phone

REVOLUTION BREAKS OUT IN BOLIVIA

Poles Assured Of Aid Unless Reds Reply

SPA, July 12.—(By The Associated Press).—The Russian Soviet government had not yet replied to the request of the allies that an armistice be arranged with Poland.

Ludwik Gembicki, the Polish premier, is due to arrive in Warsaw today from Spa, bearing the assurances of the allies that ample arms and munitions will be supplied Poland in case the Russians do not agree to an armistice or unduly delay their reply.

The Polish military authorities have informed the allies that they can put in the field an army of 1,000,000 men, but that they need 400,000 rifles, 5,000 machine guns, 1,000 light guns and armored cars and tanks together with a great variety of munitions.

The Poles count upon the allies supplying this material the deliveries beginning in about 15 days, unless the Soviet government immediately accepts an armistice.

Sir Herbert was postmaster general in the British cabinet, 1910-11 and 1915-16; president of the local government board, 1914-15; secretary of state for home affairs, 1916; chairman of select committee on national expenditure, 1917-18, and British special commissioner to Belgium, 1919.

LIMA, PERU, July 12.—A revolution has broken out in Bolivia, according to dispatches received late today from La Paz. The government headed by President Jose Gutierrez Guerra has been overthrown, and the president and members of his cabinet have been made prisoners.

Bautista Saavedra has assumed power, being supported by the army, and is said to have appointed Jose Carrasco, former Bolivian minister to Brazil, chancellor. Newspapers here in commenting on the news, say the revolution is a "crushing defeat of the pro-Chilean policy pursued by the Bolivian government and vindicates the community of interest existing between Peru and Bolivia."

Jose Gutierrez Guerra was elected president of Bolivia on May 7, 1917. The government which has been overthrown was formed on March 16, 1920. Bautista Saavedra was formerly minister of public instruction, having been appointed to that office August 12, 1909.

To Sell Eight Million Bottles Of Champagne

PARIS, July 12.—Eight million bottles of champagne will be among the items on the lists of commodities to be placed on sale January 23, when the government property of Baron Walter de Munster will be auctioned off. This property was seized in 1915 subsequent to the Baron's reclamation of German citizenship when the war began.

The number of bottles in the Baron's cellars in the vicinity of Rheims where the sale will take place, was greatly diminished during the war. When General Ludendorff was making his famous drive towards Rheims and Epervier, the wine cellars were used as shelters for the troops, and the men were given almost priceless wines with their meals.

In addition to the bottled wines there are 200,000 litres of wine in casks, these being stored in warehouses and cellars, as well as 227,000 hiding places beneath vineyards in the champagne country.

German Reply Is Deferred

SPA, BELGIUM, July 12.—(By The Associated Press).—The allied prime ministers have decided not to insist upon the Germans replying to the ultimatum regarding coal deliveries at 3 p. m. today. The Germans will be permitted to defer their reply until tomorrow.

The experts on both sides are spending the day re-examining the situation. The allies originally demanded a monthly delivery of 2,200,000 tons of coal by the Germans. The Germans offered 1,100,000 tons and the allies demand was reduced to 2,000,000. The ultimatum informed the Germans that they must agree by 3 o'clock this afternoon to this monthly delivery, or the allies would take measures to enforce the terms of the treaty of Versailles.
